Professional Summary

Cybersecurity professional with nearly a decade of experience advising Fortune 500 organizations on risk management and security strategy. Expertise in secure enterprise network architecture, mergers and acquisitions integration, third-party risk management, and overarching cybersecurity governance, including standards of care and reasonable security practices.

Employment

Kohl's

Menomonee Falls, Wisconsin

Staff Cybersecurity Advisor | 2024 - present

Senior Cybersecurity Advisor | 2022 - 2024

- Serve as principal Information Security advisor for enterprise infrastructure and technology initiatives.
- Evaluate architecture and identify cybersecurity risks across a portfolio of over 130 applications spanning cloud, infrastructure, and legacy environments.
- Recommend risk-based controls to determine conformance with enterprise governance requirements and industry best practices.
- Advise executive leadership and business stakeholders on cybersecurity strategy, third-party technology risks, and enterprise risk management.

- Formulate coordinated risk mitigation strategies in conjunction with security architecture, engineering, compliance, and security operations disciplines.
- Instruct and mentor Information Security personnel on enterprise risk management.

Koch Industries

Wichita, Kansas

Network Security Analyst | 2020 - 2022

- Direct the governance, roadmap, and architecture of enterprise perimeter security services protecting six global enterprise networks.
- Manage the lifecycle of internet-facing infrastructure, DMZ environments, and third-party connectivity.
- Advise corporate leaders on secure network architecture to support mergers, acquisitions, and technology modernization initiatives.
- Investigate and evaluate emerging vendor technologies to dictate long-term security architecture aligned with organizational risk tolerance.
- Conduct technical operations across data center, cloud, and branch environments to maintain large-scale network reliability.

Network Operator Intern, 2019 - 2020

- Conduct enterprise network operations and infrastructure management across data center, cloud, and branch environments to maintain large-scale network reliability.

Textron Aviation

Wichita, Kansas

Software Developer Contractor | 2018 - 2019

- Develop and troubleshoot software applications to support enterprise technology initiatives.
- Design and enhance internal engineering tools to optimize system performance, behavior, and operational efficiency.

NetApp

Wichita, Kansas

Quality Assurance Testing Contractor | 2017 - 2018.

- Conduct technology testing and validation.

- Evaluate hardware, software, and product quality assurance processes to determine compliance with established reliability standards and specifications.
